

CMCAR REALTORS® and our Business Partners (Affiliates) came together on May 10<sup>th</sup> to revitalize two communities in Cape May County. The program arranged for volunteers to assist eligible homeowners with exterior repairs and adaptive and safety modifications for the elderly or disabled. NJ Realtors® Housing Opportunity Foundation hosted this event.

The three homes chosen, located in Erma (Lower Township) and Sea Isle City basically got exterior makeovers. A Sea Isle City garden went from gloomy to glamorous, a second Sea Isle property had outside lighting repaired and updated while the exterior of the Erma property's over grown brush and branches alone filled an entire dumpster. All of the property owners to say the least were overwhelmed and quite humbled by the time and energy our volunteers ensued.

This day would not have run so smoothly without the supervision of Rita McMullen, CMCAR® Vice President, Chris Ohrenich, deSatnick Real Estate and Anne Sanderson, CMCAR® Communication/Education Director.

I personally want to thank all of our volunteers who participated in REALTOR® Care Day making it one of our very BEST! We as an organization are off to an excellent start this year. Your support not only made a difference in the houses we revitalized but also in the lives of the families who call them home. I am proud to be your President.
